

What Is a Person to Person Long Distance Call?

ON person to person calls the person originating the call specifies a particular person to be reached. When a person to person call is made, the company not only must do everything that it does in a station to station call to establish a communication, but must do it at a time when the particular person called will be available, and will, as a matter of fact, talk. Obviously, the company has no control over the whereabouts of persons called, and there is involved an additional expense and circuit use, and uncertainty, caused by conditions over which the company has no control or influence. So that it is both logical and proper that the charge for a person to person call should be relatively more than the station to station call.

Orders for person to person calls are accepted only under the condition that a limited charge will be made when under certain conditions, it is impossible to establish communication between specified persons. This charge is classified as a "report charge."

By studying their needs, toll users can effect economies and make the service more valuable and convenient.

PICTURESQUE LIGHTS

Seen at Night Along Mississippi Sea-coast From Interior Subject.

Biloxi Herald:

Visitors on the coast wonder at the picturesque and brilliant lights or flares which may be seen in the evenings along the coast. For their benefit they are informed that these lights, which seem to make a ribbon path of yellow and white light straight to the beholder, are borne by men and boys, and sometimes by parties of "flounders," one of the most edible fish to be had. Things are frequently said to be as flat as a flounder, and it may be added that a flounder is as flat as a pancake. While the fisherman has his head in the sand and exposes his swarthy face so to say, the flounder gets entirely under the sand and keeps one eye to the surface. But his form shows, and into it goes the merrily speared of the flounder, who pins flat game to the flat ocean bottom until he can "unstring" him and put him in a sack. These delicacies, whose bones grow conveniently together, so for as eating him is concerned, a few years ago retailed at ten cents each but with the rise of wages, the purchasing part of a dime fell, and thereby seemingly the flounder has risen in dignity as well as in price, and he who can get two or three sizable ones for the evening meal, sits down to feast. The lights seen also indicate that the shrewd local fishermen are watching for the crab to appear with its armour, when he is unable to do much save surrender without a fight or a rapid "back down." There is no greater delicacy than these tasteful little crustaceans. When the packers shall learn to pack the "soft shell," and inland epicures learn about them, then will Biloxi be famous for crabs, as she is now for oysters and shrimp. Many citizens who have watched the growth of the city and her industries, firmly believe that her permanent prosperity will be found in the fishing industry. The Ausarians from Dalmatia, on the Mediterranean, find their element in this work here, which was their chief occupation on the shores where Trieste is the great export.

CALLS G. O. P. STAND

WEAK, INSINCERE

Senator Pat Harrison Raps Straddle of Great Questions.

Crystal Springs, Miss., June 14.—

The platform adopted by the Republican convention at Chicago is woefully weak and insincere, in the opinion of Senator Pat Harrison who arrived here Saturday after spending a few days at Chicago on his way home from Washington.

"The platform they adopted," said Senator Harrison, "shows not only the motives that have influenced their actions in Congress against the present administration, but it reveals also the hypocrisy of their position in the coming campaign. It reeks with prejudice, expressed and implied, against President Wilson, and it fails to meet any issue squarely. It stands many of the great questions and offers no constructive policy upon which to enter the campaign. Its assertions are full of falsehoods and misrepresentations, and no further proof is needed to convince the American people of their lack of proper vision or ability to solve present day problems."

The platform was conceived and written and adopted in that spirit of rank partisanship that has characterized the work of the Republican majority in Congress for the past 15 months. It is a remarkable document in that for the first time in the history of the Republican Party it remains mute on the tariff question, failing to define the position, refusing to condemn the Democratic Underwood tariff law and declining to take any American people into its confidence as to its policy of tariff legislation. It is practically an endorsement of the Underwood tariff law, as has also been the failure of the Republican Congress to repeal the law during the 15 months the party has been in control of the Senate and House.

"Four lines of the platform are devoted to the party's policy toward the encouragement and development of the water transportation service of the country, but the record shows that while the Army Engineers requested and urged an appropriation of \$45,000,000 for necessary improvement and maintenance of rivers and harbors of the country, the Republican Congress refused to appropriate more than \$12,000,000."

"America has been humiliated, our moral influence has been impaired, and our government does stand discredited and friendless among the nations of the world, but it is because of the hatred on the part of the Republicans in the Senate of President Wilson and their desire and determination to play politics in the settlement of a great question in which humanity and the world were interested. And their platform, pronounced on this great question should prove beyond all doubt that it has been the sole purpose of the Republican majority in the Senate from the first to discredit President Wilson."

TWO SEASONABLE RECIPES.

Miss Ciriot, County Home Demonstration Agent, Has Interesting Commencement.

"The Sea Coast Echo:

"Since the canning season has come so many requests have come into my office to help them put up some of their surplus vegetables. I cannot meet all these requests and I am taking this means of reaching some of the people. I have numbers of bulletins that can be gotten from my office by coming on Saturdays. I will be glad to give them out."

To can Beans.

Wash jars and put on stove in a wash boiler of some kind and let them be covered with water and boil for thirty minutes, while they are boiling the beans can be sorted, washed and strung. Have beans young and tender so that the flavor will be good. Dip the beans in boiling water and let stay there for three minutes this preserves the color and makes the beans more pliable, thereby making them easy to pack in the jars. Fill the jars with the beans; then pour over each quart 2 cups of water into which has been poured a teaspoon of salt. Cover beans good with the rubber, on and screw jar top down to half way, if glass top put clamp on top of lid and put in vessel of cold water and put on stove and boil for four hours. Then screw top on tight and turn jar on lid for a few hours to test for leak. While packing and you have read nice beans, pack a jar for the County Fair. There is a prize of 50 cents offered for the best square quart jar of beans put up by any woman in this county in this particular kind of jar. These are the jars at the State Fair re-

quires and we want an exhibit from our County Fair there.

The tomatoes are blighting and rotting everywhere but they can save the green ones by making either green tomato pickles or green tomato mince meat.

"Green Tomato Pickle.

1 Gallon green tomatoes.

1-2 Dozen large onions.

3 Cups brown sugar (syrup sugar or left out if sour pickle is desired.)

1-2 Lemon.

3 Pods red pepper.

3 Cups vinegar.

1 Tablespoon whole black pepper

1 Teaspoon of whole cloves.

1 Teaspoon of whole allspice.

Slice tomatoes and onions thin, sprinkle over them 1-2 cup salt and let stand over night in a crock or enameled pan. The spices on a cloth bag, slice lemon and chop pepper fine. Pour the brine over the tomatoes and onions, and all seasoning except one pepper pod to the vinegar, then add onion and tomato, cook for 1-2 hour, stirring gently to keep from burning. Take out the spice bag to keep from darkening the product. Pack in glass top jars if possible for the fair. Four the brine over the tomatoes and onions, and all seasoning except one pepper pod to the vinegar, then add onion and tomato, cook for 1-2 hour, stirring gently to keep from burning. Take out the spice bag to keep from darkening the product. Pack in glass top jars if possible for the fair.

Process for 15 minutes.

I will be glad to assist any one who wants to put up the jars for the County Fair or home use. This year every county in the state is working to have an exhibit of work done by the people in it. We want our county there and every line of cooking represented. The products show up much better in the square glass jars and it gives the work of putting up that jar credit.

CITY ECHOES.

Thursday night—"The Miracle Man."

Mrs. John Regus and son of New Orleans are spending a while here visiting friends.

Mrs. (Dr.) H. S. Lewis was a visitor to New Orleans Monday, visiting relatives and friends.

Mr. E. E. Lucas, real estate specialist, returned home Wednesday night from a business trip to New Orleans.

Mr. John Daly has returned to New Orleans after a visit to Mr. and Mrs. J. E. Sancier and Miss Louise Sancier.

Bay St. Louis this season is overflowing with the welcome summer visitors, and there is no doubt that this is the biggest year of guests within our gates ever known.

Mr. and Mrs. O. M. Green and interesting baby are here from New Orleans, spending a while with the former's parents, Mr. and Mrs. J. A. Green, and family.

Mr. and Mrs. Robt. W. Taylor and their new baby, Tom, returned home from New Orleans Wednesday night and are warmly welcomed. The little fellow is a fine one and is receiving many visitors.

"The Miracle Man" only shown in the large cities, but the A. & G. management has secured it for Bay St. Louis. Next Thursday night. The most talked about picture of the day.

Miss Helen Hegarty, of Washington, D. C., is the guest of Mrs. Jos. L. Gager at her beautiful home in Carroll avenue. Mrs. Gager entertained Mrs. Elizabeth Courge, of Lake Shore, during the week.

Mrs. M. J. Noel, district agent home demonstration work for Southeast Mississippi, embracing nineteen counties, spent yesterday in Bay St. Louis conferring with Miss Grier, local agent.

Mrs. J. E. Sancier has returned from New Orleans, where she spent a week visiting her daughter, Mrs. T. V. Casanova, and was accompanied home by her two grand daughters, Althea and Alberta, who will remain for a while.

There is a sentiment in some parts of the county to abolish the offices of county farm agent and county home demonstration agent. It would be a grave mistake to do so, and the Echo trusts the Board of Supervisors will see its way clear to continue the good work which has been so well started. To abolish these offices would be taking a step backwards. Hancock county cannot afford to do this.

Mr. George J. Muller and brother-in-law, Mr. Fred Bernos, came out from New Orleans Saturday for the week-end, and were guests of the home of Mayor R. Webb. Mr. Muller and family will spend part of next month here in vacation past time and will visit their relatives in Carroll avenue.

County Tax-Assessor F. C. Bordages reports that he has practically worked up his work and will have his assessment roll ready for the Board of Supervisors for revision July 1st. It has been quite a big task but he is familiar with the work and exceedingly competent and the results are always gotten up expeditiously and satisfactory to all concerned.

It will be of decided interest to the many stockholders in the Banderet Oil Company to learn of the marked success that is crowning the efforts of Mr. F. Banderet, who is on the field of operations in Texas. In view of the fact that machinery and all paraphernalia is unavailable and prices sky high, the Company was exceedingly fortunate in having its entire outfit necessary for drilling which is now on the ground and set up and actual work of getting the anticipated gusher is in progress.

Quite a number of subscribers have responded promptly to the number of statements recently sent out from The Echo office, but there is still a considerable number who have not been heard from. It is expected these will respond at an early date. The cost of white paper is well nigh prohibitive, and unless our friends who are delinquent for subscription will give us that consideration due it will be necessary to drop their names from our mailing list and force collection on amounts past due. The day of sentiment in newspaper business is passed. The publication of newspapers has resolved itself into a business proposition pure and simple, where the dollars and cents to the very cent must be accounted for. The true cost of producing a newspaper would stagger the average layman, and no right-thinking person will expect to get week after week the fruits of our labor and results of a heavy weekly expense without paying for same, and no one will take offense at the call to pay up.

It is expected these will respond at an early date. The cost of white paper is well nigh prohibitive, and unless our friends who are delinquent for subscription will give us that consideration due it will be necessary to drop their names from our mailing list and force collection on amounts past due. The day of sentiment in newspaper business is passed. The publication of newspapers has resolved itself into a business proposition pure and simple, where the dollars and cents to the very cent must be accounted for. The true cost of producing a newspaper would stagger the average layman, and no right-thinking person will expect to get week after week the fruits of our labor and results of a heavy weekly expense without paying for same, and no one will take offense at the call to pay up.
